

Mesh Offset

CHS35 BODY have "Mesh Offset"(PushModifer) modifier. His value determines distance between figure and cloth. Location : Parameters TAB > General > Mesh Offset.

The CHS35 body is saved with a mesh offset -0.37. This covers most poses and shapes applicable to G8F. In some cases body cut the cloth. When cuts appear, value of Mesh Offset must be changed. To do this select CHS35 BODY , go to Parameters TAB > General > Mesh Offset and slowly increase its value.
